

MANJEET SINGH BISHT

Senior PV Drafter & Quality Lead | Commercial & Residential PV Design | BIM Coordination

Noida, India | +91-9953443461 | singhbishtmanjeet@gmail.com | [linkedin.com/in/manjeet-singh-bisht-3b584b206](https://www.linkedin.com/in/manjeet-singh-bisht-3b584b206) | <https://manjeet-portfolio-mu.vercel.app>

PROFESSIONAL SUMMARY

Solar Permit Engineer with 4 years of experience and 5,000+ AHJ-compliant permit plan sets across residential, commercial (up to 724.8 kW - 1MW), ground-mount, and BESS projects in 10+ US states and UK and Canada permit. Advanced AutoCAD proficiency, including custom template and block library creation. Hands-on Autodesk Revit/BIM experience in 3D electrical equipment layout and conduit routing. Working knowledge of NEC 2020/2023, IBC, ASCE 7, and AHJ requirements. Experienced in process development, team training, and workflow optimization, with a proven track record of reducing turnaround time from 24 to 12 hours.

CORE COMPETENCIES

AutoCAD (Advanced) • Custom Template & Block Library Creation • Commercial PV Drafting • Residential Solar Plan Sets
Ground-Mount Solar PV • BESS Documentation • Electrical One-Line Diagrams (SLD) • Structural Line Drawings • Site Layouts
AHJ Compliance & Plan Revisions • NEC / IBC / ASCE Codes • Autodesk Revit / BIM Coordination • Document Management

TECHNICAL SKILLS

CAD & BIM: AutoCAD (Advanced), AutoCAD LT, Autodesk Revit (Intermediate)
Solar Platforms: OpenSolar, Scanify, U-Builder, IronRidge Design Tool, Aurora Solar, Scanify
Codes: NEC 2020/2023, IBC, ASCE 7-16/7-22, CBC, California Title 24, Canadian Electrical Code
Drawing Types: SLDs, PV Layouts, Structural Racking Details, Interconnection Drawings, Conduit Schedules
BESS Equipment: Tesla Powerwall 3, Solaredge, Enphase, Growatt, Solis, Pylontech, SigenStor |
Languages: English (Professional), Hindi (Native)

PROFESSIONAL EXPERIENCE

One Place Solar — Noida, Uttar Pradesh, India

Intern – PV Drafter (Sep 2022) → PV Permit Drafter (Sep 2023) → Senior PV Drafter & Quality Lead (Sep 2024 – Oct 2026)

Senior PV Drafter & Quality Lead | One Place Solar | Sep 2024 – Oct 2026

- AutoCAD & Templates:** Led 200+ plan sets/month; built custom template & block library cutting turnaround from 24 → 12 hours.
- Commercial & Ground-Mount:** Drafted complete plan sets for commercial rooftop (up to 724.8 kW), ground-mount (246.4 kW DC), and BESS projects — SLDs, site layouts, structural racking, and interconnection drawings.
- AHJ Revisions:** Processed AHJ correction letters and reviewer feedback, maintaining a 35% improvement in first-submission approval rates across 10+ US jurisdictions.
- BIM Coordination:** Used Autodesk Revit for 3D electrical equipment placement, conduit routing, and architectural model linking on commercial projects.
- Team Leadership:** Mentored 5 designers; reduced design errors by 40% through QA checklists and CAD standards. Maintained an organized digital filing system for all drawings and documentation.

PV Permit Drafter | One Place Solar | Sep 2023 – Sep 2024

- Plan Set Production:** Designed 300+ compliant residential & commercial solar permit plan sets using AutoCAD — SLDs, plan-view layouts, racking details — meeting AHJ and utility standards.

- **Template Development:** Built AutoCAD block libraries and drawing templates that accelerated workflows by 25%; maintained 92% on-time delivery rate.
- **Code Compliance:** Interpreted utility requirements, AHJ codes, and structural reports across multiple US states to produce accurate, permit-ready drawings.

Intern – PV Drafter | One Place Solar | Sep 2022 – Sep 2023

- Completed 100+ permit design projects under supervision; achieved 90%+ accuracy on technical deliverable including SLDs, site layouts, and structural attachment specifications.
- Gained working knowledge of AHJ-specific codes, NEC requirements, and utility interconnection standards across US markets.

TRAINING & PROCESS BUILDING

Team Lead & Training Coordinator – Agra Branch | One Place Solar | 2025 - 2026

- Designed onboarding program for 8 engineers, cutting ramp-up time from 6 weeks → 3 weeks through structured AutoCAD workflow modules and QA checklists.
- Built branch processes from the ground up (CAD templates, documentation standards, feedback loops), reducing permit design errors by 50% — demonstrating startup mindset.
- Guided engineers through complex permit projects, AHJ comments, design revisions, and technical troubleshooting, ensuring accurate and code-compliant deliverables.
- Supported the setup and operationalization of the Agra branch team, establishing repeatable processes and building technical capability for independent project execution.

EDUCATION

Bachelor of Technology (B.Tech) – Civil Engineering | Sanskriti University, Mathura | Currently Pursuing — Expected 2027

Diploma in Civil Engineering | Pusa Institute of Technology | 2019 – 2022

Relevant Coursework: Structural Design, Construction Management, CAD & Technical Drawing

CERTIFICATIONS

- NCC Cadet – A Certificate (Leadership & Discipline Training)
- Public Works Department (PWD) Industrial Training Certificate
